

Corina Reitemeyer

Senior Product Designer

Senior Product Designer available for contract, with 8+ years across government, education, and B2B SaaS. I'm the designer you bring in when something complex needs untangling, making it simpler and easier to use. I take a structured yet practical approach to my work, with a technical lens that keeps design grounded in what can actually be built. I'm drawn to sectors where design makes a genuine difference to people's lives, which is what led me to web accessibility. I embed it from the start, not bolt it on at the end, and build design systems that outlast my time in a team.

Experience

SuiteFiles — Senior Product Designer (Mar 2025 – Feb 2026)

- Took ownership of product design as the sole IC designer following team changes, leading a full redesign of a document management and e-signing platform for accounting professionals.
- Evolved the design system through a live rebrand, establishing new components and patterns while product development continued at pace.
- Defined and designed the company's first AI feature, a document summarisation tool for high-stakes signing workflows, establishing human-AI interaction principles for responsible, trust-aware implementation.

Dev Academy Aotearoa — Bootcamp Facilitator (Contract) (Jul – Dec 2024)

- Delivered UX and frontend guidance for cohorts of 15+ students across a full-time coding programme focused on modern full stack web development.
- Guided students through code reviews, component implementation, and responsive interface troubleshooting, bridging design and engineering thinking throughout.
- Ran industry-simulated delivery projects reinforcing design to engineering collaboration from brief to build.

Optimal Workshop — Product Designer (Jul 2022 – Dec 2023)

- Designed the first templates feature under a new product strategy, reducing post-onboarding churn through faster research setup and improved multi-method adoption.
- Improved growth features including free trial flows, billing transitions, and pricing changes, balancing conversion goals with usability at each stage.
- Maintained and evolved the design system across several product squads, ensuring consistent component use and scalable delivery.

Ministry of Education — Senior UX/UI Designer (Aug 2021 – Jul 2022)

- Established and led the organisation's first design system, now active across 50+ digital platforms, and continuing to evolve after my departure.
- Designed high-priority digital services for students and teachers across NCEA, secondary school, and COVID-19 response initiatives.
- Built reusable templates and content models for CMS-driven platforms supporting scalable, consistent publishing across teams.
- Embedded accessibility standards across new and existing products, conducting audits and establishing WCAG-aligned patterns as a baseline for the organisation's digital output.

Ministry of Education — UX/UI Designer (Contract) (Apr 2019 – Aug 2021)

Hiplee (Frankie AI) — Web Designer (Jun 2018 – Apr 2019)

Blackeye VR — Digital Product Designer (Mar 2018 – Jun 2018)

Accolades [Best Awards, 2018](#)

Location Melbourne, Australia

Citizenship New Zealand (with Australian work rights) & Germany

Specialisation

Scalable Design Systems

I establish and evolve design systems in complex, multi-team environments, from component architecture and design tokens to documentation and adoption. I build for longevity, not just delivery.

Accessibility & Inclusive Design

Accessibility is built into how I design, not added later. I work to WCAG 2.1 / 2.2 standards, embedding accessible patterns as a baseline rather than a checklist.

Technical Design & Dev Collaboration

I bring a technical lens to design decisions, working closely with engineers throughout the process. I understand component logic, system constraints, and what makes a design genuinely buildable.

Skills and Tools

Scalable UX · Design Systems · Design Tokens · Token Architecture · Component Libraries · Accessibility (WCAG 2.1/2.2) · Interaction Design · Agile Product Delivery · Figma (incl. Dev Mode, MCP, Make) · Cursor · Claude Code · Lovable · VS Code · HTML · CSS · React · TypeScript · GitHub

Qualifications

Dev Academy Aotearoa — Level 6 Certificate in Applied Software Development

Massey University — Bachelor of Design (First Class Honours), Visual Communication Design
